NAV decline mainly driven by price losses of listed shareholdings

On 10 May, investment company Mountain Alliance published its annual report for the last fiscal year and has given an outlook for 2023.

Consolidated sales have grown substantially: Sales stood at EUR 11.4m at the end of 2022, corresponding to an increase of roughly 13% yoy. In essence, the positive development of Shirtinator should have contributed to this top line growth. The segment reporting serves as a guide here. Promipool and Shirtinator are grouped under Digital Media & Retail (2022: EUR 10.1m; +16.7% yoy). We believe that the major portion is attributable to Shirtinator (MONE: EUR 8.5m).

2022 was concluded with negative consolidated earnings – listed companies offset improved EBIT development: Whilst EBITDA and EBIT of the fully consolidated companies improved by EUR 0.4m yoy and EUR 0.6m yoy respectively, this could not compensate for the contrasting development of listed investments Bio-Gate AG, Exasol AG (closing price as of 31.12.2022: EUR 2.82 and EUR 2.81) and de-listed Asknet Solutions. As the recognized liability from the acquisition of Mountain Technology correlates with the price development of Exasol, the company booked income of almost EUR 6.4m in response to the price decline in 2021, which had a massive impact on the income from investments (2022: only EUR 0.5m). At EUR -1.7m in 2022, this figure thus was significantly below the prior year (EUR 6.0m). In total, earnings per share amounted to EUR -0.38 (2021: EUR 0.55).

Outlook for 2023 provides for sales growth and improvement of NAV: Notwithstanding the still challenging market environment, the management is confident, expecting to increase both sales and NAV in a range of 5–10% yoy.

AI-based threat of substitution leads to massive slide in share prices at language providers – Lingoda's approach proves its worth: Last week, newspaper [WELT](#) reported on the slide in share prices by almost 50% at education providers such as Chegg and Udemy. According to analysts, an entire industry would be up for disposal due to the use of ChatGPT. However, we believe this only holds true for the text-based approaches of language providers. For this reason, we rather see this news as a value driver for Lingoda as the company creates a personal learning environment with its virtual learning formats which is appreciated by customers. This is the focus of the online language school (business model is featured in Comment of 27 February).

Conclusion: Mountain Alliance currently still is in talks about the acquisition of entire investment portfolios. The successful exits realized in 2022 are seen to be the foundation for building up new positions. Additionally, Mountain Alliance should benefit from the distribution structure of the transferred exit volumes (2022: 62% through the sale of investment companies vs. 36% in 2021). We therefore expect positive news flow on this topic during the year and reiterate our buy recommendation.

Valuation of the net asset value of Mountain Alliance AG (per 31.12.2022)

Core investments	Potential value (in EUR m)

COMPANY BACKGROUND

Mountain Alliance is a Munich-based listed investment company focused on small to medium-sized companies with digital companies from the DACH region. The company primarily invests in comparatively mature companies with revenues of between EUR 1.0m and EUR 30m. Mountain Alliance invests in companies, which have already left the so-called early stage financing phase and are now in the growth or later stage phases. The venture capital investor currently holds 26 companies, which are divided in the fields of technology, digital business services, digital retail as well as meta platforms & media. Mountain Alliance generally holds interests of between EUR 0.5m and EUR 1.0m depending on the investment.

Below please find a brief overview of important milestones in the company's history:

- 2010** Foundation of Blitzstart Holding AG, which was renamed Ecommerce Alliance AG a few months later
Start of trading at the Frankfurt stock exchange at the end of 2010
- 2013** Participation of strategic major shareholder Redline Capital Management as part of a capital increase
- 2015** Realignment of the business model with increased focus on e-commerce
- 2017** Contribution of all shares of Mountain Internet AG by way of a capital increase through contribution in kind.
Listing at the Bavarian stock exchange in Munich in the „m:access“ segment and in the basic board at the Frankfurt stock exchange
- 2018** Change of name into today's Mountain Alliance AG
Contribution of all shares of Mountain Technology AG by way of a capital increase through contribution in kind
- 2019** Implementation of a capital increase with the purpose of expanding the investment portfolio
Partial exit of the company's interest in Exasol AG
- 2020** Partial exit of the company's interest in AlphaPet Ventures GmbH
Partial exit within the Exasol-IPO
- 2021** External Financing round at Lingoda
- 2022** Exit of payment Startup Tillhub to PSP Unzer and Mybestbrands to Signa Retail
Announcement of further partial exit from AlphaPet in November

Investment strategy

Investments are focused on digital business models which hold the potential for disruption and economies of scale according to the assessment of Mountain Alliance. The company focuses on technology, digital business services, digital retail as well as meta platforms & media, i.e. on areas in which the management has long-term experience and an extensive network.

Mountain Alliance does not act as an aggressive activist investor, but actively contributes to the portfolio companies' value creation in advisory roles. Thanks to the listing at the stock exchange, Mountain Alliance remains flexible in the planning up until the exit contrary to typical (closed) private equity investment funds. The targeted holding period is 3-5 years despite the so-called evergreen structure.

Regular exits serve to generate financial funds for interim financing of existing portfolio companies as well as for new investments. Mountain Alliance aims for one or two (partial) exits per year. As for new investments, the company is either looking for stakes in individual companies or for entire portfolios. Mountain Alliance prefers to acquire entire

portfolios from early phase investors. This also has the advantage that the acquisition entails less administrative cost and efforts. Individual stakes are combined into one holding and Mountain Alliance has to sign only one contract to acquire this holding.

Mountain Alliance has applied this practice in the last few years when the company acquired two promising portfolios from the network of major shareholder Mountain Partners (64.4% stake). In H2/17, the company acquired Mountain Internet AG, a holding with nine companies (Volders GmbH, Lingoda GmbH, AlphaPet Ventures GmbH amongst others). One year later, Mountain Alliance acquired Holding Mountain Technology AG, which held six companies (Exasol AG, Bio-Gate AG, movingImage EVP GmbH amongst others). By acquiring stakes in 16 companies in total, Mountain Alliance has laid the foundation for further growth.

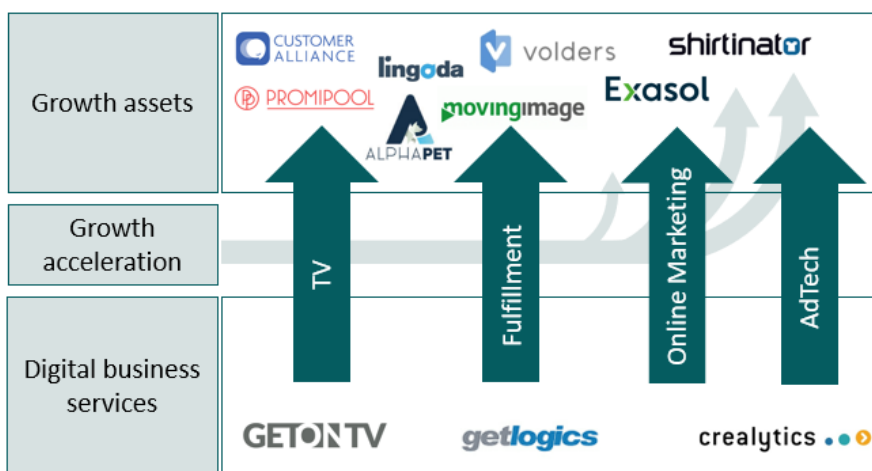

Portfolio

Mountain Alliance is currently invested in 26 companies. The portfolio focuses on digital business models that replace traditional processes with their innovative or disruptive solutions.

The holdings within these segments are separated into technology, digital business services, digital retail as well as meta platforms & media. The companies are segmented according to their respective organisational focus. The services segment includes all services and management companies rendering services to the companies in the Mountain Alliance portfolio as well as to third parties. This is done to ensure that maximum use is made of the synergies between the individual holdings. The segment mainly includes the companies specialised in digital business services which, with the help of their services, serve to accelerate the growth of other holdings. The second, much larger segment “brands” includes those companies specialised in technology, digital retail as well as meta platforms & media.

The companies in the **technology** sector are characterised by their innovative technological expertise in a variety of industries. Most of the holdings sell software applications for the B2B or B2C sectors, e.g. Lingoda for e-learning of languages, or Exasol with a database management system.

Digital business services bundles those companies offering services such as logistics (e.g. getlogics), AdTech (e.g. crealytics) or TV ads (e.g. getonTV). These services can also be made available to other portfolio companies with the aim to accelerate the growth of one another. For instance, Lingoda, the online language school, benefits from the knowledge of search engine specialist crealytics regarding the acquisition of new customers.

Source: Company, Montega

The **digital retail** segment has grown from the predecessor company E-Commerce Alliance. With these holdings, Mountain Alliance intends to participate in the transformation of the traditional stationary retail towards e-commerce in a large variety of industries. Digital retail companies are, for instance, AlphaPet Ventures (pet supplies) or Shirtinator (online retail of individually printed clothing).

The fourth segment, **Meta-Platforms & Media**, comprises web-based services, which bundle information from several websites to prepare this data in a clear manner for the consumers. These investments allow Mountain Alliance to be active in various end markets with different platforms. Thanks to its investment in Promipool, for instance, the company participates in an online people magazine providing its users with stories and news about German and international stars and VIPs.

Management

The company's operating business is currently managed by **Manfred Danner**.

Manfred Danner has co-shaped the digital transformation and realignment of Mountain Alliance since 2010. In 2017, he was appointed to the management board and is responsible for M&A, legal, portfolio management, audit, risk management, and investor relations. Prior to joining Mountain Alliance, he held senior management positions at different industrial and technology companies both in portfolio management and in the commercial area. He has an in-depth knowledge in the tasks entrusted to him.

Besides Manfred Danner plays the former CEO Daniel Wild, who is now member of the supervisory board, still a very important role.

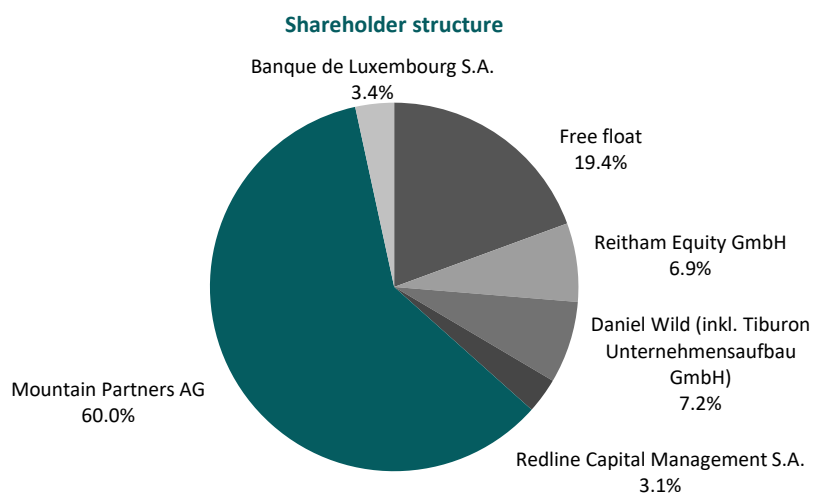

Daniel Wild has been the founder and managing director of the predecessor companies, getmobile AG and Ecommerce Alliance and was CEO of Mountain Alliance AG until May 2021. Alongside his current position as member of the supervisory board of Mountain Alliance, he is also the CEO of the non-listed Mountain Partners AG and the managing director of Tiburon Unternehmensaufbau GmbH, his personal investment company. Based on his career as a serial entrepreneur and early stage investor, he has extensive experience and a broad network in the private equity industry. The exits of more than 120 companies underline his personal track record.

Shareholder structure

The shares of Mountain Alliance AG are traded at the Bavarian stock exchange in Munich in the „m:access“ segment and in the Basic Board of the Frankfurt stock exchange. Since the placement of the last capital increase in March 2020 the company's share capital has consisted of 6,855,584 no-par shares with a nominal value of EUR 1.00 each.

The shareholder structure is mainly characterised by the 60.0% stake of the largest shareholder, Mountain Partners, which has been a strategic anchor investor since 2017. Other significant stakes are held by Daniel Wild (7.2%), Redline Capital Management (3.1%) and investment company Reitham Equity (6.9%). The latter is the investment vehicle of private equity investor Jens Neiser, who has also been one of the first investors of getmobile AG, and who has successfully sold many other holdings such as Allgeier or Swyx. His company has held the stake in Mountain Alliance since 2011. In addition, Banque de Luxembourg holds a share of 3.4%. The remaining 19.4% are free float.

It is not allowed to transmit, distribute, or to make this document or a copy thereof available to persons within the United States of America, Canada, and Japan or to their overseas territories.

Declaration according to Section 85 of the German Securities Trading Act (WpHG) and Art. 20 Regulation (EU) No. 596/2014 in conjunction with Commission Delegated Regulation (Delegierte Verordnung) 2016/958 (as of 09 May, 2022): Montega has made an agreement with this company about the preparation of a financial analysis. The research report has been made available to the company prior to its publication / dissemination. Thereafter, only factual changes have been made to the report. A company affiliated with Montega AG may hold an interest in the issuer's share capital or other financial instruments.

Prices of financial instruments mentioned in this analysis are closing prices of the publishing date (respectively the previous day) if not explicitly mentioned otherwise. Any updating of this publication will be made in the case of events that Montega considers to be possibly relevant to the stocks' price performance. The end of regular comments on events in context with the issuer (coverage) will be announced beforehand.

Sources of information: The main sources of information for the preparation of this financial analysis are publications of the issuer as well as publicly available information of national and international media, which Montega regards as reliable. There have also been discussions with members of the management team or the investor relations division of the company concerned when preparing this analysis.

Reference pursuant to MiFID II (as of 09 May, 2022): This publication was prepared on the basis of a contract between Montega AG and the issuer and will be paid by the issuer. This document has been widely published and Montega AG makes it simultaneously available for all interested parties. Its receipt therefore is considered a permissible minor non-monetary benefit in the sense of section 64 Paragraph 7 Sentence 2 No. 1 and 2 of the German Securities Trading Act (WpHG).

Fundamental basics and principles of the evaluative judgements contained in this document: Assessments and valuations leading to ratings and judgements given by Montega AG are generally based on acknowledged and broadly approved methods of analysis i.e. a DCF model, a peer group comparison, or sum-of-the-parts model.

Our ratings:

Buy: The analysts at Montega AG believe the share price will rise during the next twelve months.

Hold: Upside/downside potential limited. No immediate catalyst visible.

Sell: The analysts at Montega AG believe the share price will fall during the next twelve months.
